## Estate Planning

---

We advise our clients on all aspects of estate planning. Through the use of wills and trusts we structure the transfer of wealth from one generation to the next while minimizing the tax cost and balancing personal family issues. We have expertise in:

- drafting wills, powers of attorney, living wills, family trusts and alter ego trusts
- designing and implementing succession plans that facilitate a smooth transition of family business assets to the next generation
- resolving family disputes
- structuring estate plans that minimize income tax and probate tax arising on death
- implementing estate freezes
- drafting domestic agreements, including co-habitation and marriage contracts
